THE MEN IN CLASS A1

A sound, healthy man is never a sick number. A man can be as vigorous and able at 70 as at 20. Condition, not years, puts you in the discard. A system weakened by overwork and careless living brings old age prematurely. The bodily functions are impaired and unpleasant symptoms appear. The weak spot is generally the kidneys. Keep them clean and in proper working conditions and you will naturally find yourself in Class A1.

GOLD MEDAL Haarlem Oil is periodically and your system always be in working order. Your spirits will be enlivened, your appetite will be improved, your body capable of hard work until you have been induced to be a first-class man. Go to your druggist for a trial box of Haarlem Oil. Owners' Records of 100,000—200,000—300,000 MILES made by WHITE TRUCKS

THE ultimate mileage of White Trucks is still unmeasured. Some have rounded out 300,000 miles. Many have run 200,000 miles. Hundreds, probably thousands, have passed the 100,000 mark—a very common White performance.

THIS list includes only trucks whose records we know of. There are many others. They roll up mileage years after the best ordinary truck is worn out. In the long run, White Trucks involve less investment. Fewer units are required to

do the work. They put off the day when new trucks replace them. Operating and maintenance costs are also lowered by the steady volume of performance which makes possible these high mileage records. *White Trucks Are Money Savers.*
